**The USA is a very rich nation — with a terrible distribution of wealth.
The bottom 50% hold about 2.5% of U.S. household wealth.
The U.S ranks 24th in the 2025 World Happiness Report.**

People in many happier nations have:

- **Universal health care with low out-of-pocket costs and no tie to employment**
- **Free or low-cost higher education and lifetime retraining**
- **5 weeks paid vacation, plus holidays and paid sick leave**
- **Months of paid parental leave for the birth of a child**
- **Heavily subsidized, high quality child care**
- **More secure retirement systems**
- **Better unemployment and disability benefits**

We have the power: we have the votes

This website makes it easy to send clear fact-based messages that explain how to fix the nation's problems — use the suggested messages, edit them, or write your own.

When Congress sees that enough voters understand the solutions — and demand them— Congress will be pushed to take responsibility and deliver results.
